Total amount of transfers for the week, \$23,572.

The Moberly Democrat has this to say of L. A. Embree who was formerly marshal of this city, later constable of Keytesville townships and for several years made his home at this place: L. A. Embree, who for four or five years prior to the recent abolition of the secret service department of the Wabash was in the employ of the company, has been re-engaged as special agent. Mr. Embree's duties will not include an espionage upon other employees of the company, but will be limited to the protection of the company's property and the care of shipments through the state of all consignments entrusted to the Wabash road. Mr. Embree had prepared to remove his family to Fort Scott, where he had been offered a similar position with the Missouri Pacific, but being offered a good place with the Wabash he decided to remain in the best city on the map. The Democrat is glad to know that he is to continue to reside in Moberly. He is not only a good citizen and a fine gentleman, but has a reputation second to none in his special line of work.

C. James Griswold, a foster son, adopted from an orphan home by Thornton Griswold of Clarence, went to Macon and left with a tramp whom he gave a \$2 check, signed by himself, to get it cashed. The tramp was unsuccessful in his efforts to cash the check, and he and the Griswold lad were arrested on suspicion. It was subsequently learned that the check was good, as young Griswold had \$10 in the bank at Clarence and on which the check was given. The Griswold boy, after spending a night in jail, was taken back to his foster parents, who are said to think a great deal of him and intended that he join, and in the hope that his inheritance stay in the Golden state will which amounts to about \$10,000, prove beneficial to his health.

The Food Value of a Soda Cracker

You have heard that some foods furnish fat, other foods make muscle, and still others are tissue building and heat forming.

You know that most foods have one or more of these elements, but do you know that no food contains them all in such properly balanced proportions as a good soda cracker?

The United States Government report shows that soda crackers contain less water, are richer in the muscle and fat elements, and have a much higher per cent of the tissue building and heat forming properties than any article of food made from flour.

That is why **Uneeda Biscuit** should form an important part of every meal. They represent the superlative of the soda cracker, all their goodness and nourishment being brought from the oven to you in a package that is proof against air, moisture and dust—the price being too small to mention.

NATIONAL BISCUIT COMPANY

PROBATE SETTLEMENT DOCKET.
